

# FACTSHEET

## Westover Dairy Club

The idea behind the dairy club is to reward client loyalty by reducing our charges and ensuring regular routine visits.

For a monthly fee, dependent on herd size, we have reduced our hourly rate, discounted all drugs and charge a normal day time visit for out of hours emergencies.

In addition we don't charge a visit fee for routine fertility visits. For herds calving all year round we recommend fortnightly routine visits, although weekly or monthly might be more appropriate.

For block calving herds we plan a series of fertility visits in conjunction with you to ensure maximum efficiency and productivity.

The routine visits are an excellent way to monitor performance, discuss health plans and devise treatment protocols.

We like to operate a 2 vet system with one lead vet for routine work and a dedicated second vet. All our vets are able to see and treat non-routine sick cows or emergencies 24 hours a day.

**If you think this scheme may be something of interest to you and your farm, then please call the surgery for more information.**
